

Dear Alumni and Friends

We are pleased to let you know that *“One Night in Shanghai”* gathering has been successfully carried out in April 2008. This gathering, co-organised by the Business School and NAAS, is to establish some positive communication between Chinese Alumni and the post graduate students of MSc. International Business who paid their summer visit to China in April. We were even more pleased to know that apart from their exciting experience in many cities of China, some of the students were able to obtain permanent job opportunities in China.

We also have the following honoured guests joined with us in the gathering

- Professor Darryn Mitussis, Lecturer in Marketing
- Professor Sue Bishop, Head of the Centre of Global Finance
- Mr. Gavin Anderson, British Council Director Shanghai

It has been another successful event and we wish you all enjoyed it!
